

How to access your new BigFanMail email address from an existing Yahoo Account

Step 1: Login to your Yahoo Account

Step 2: Click on settings icon and select "Settings"

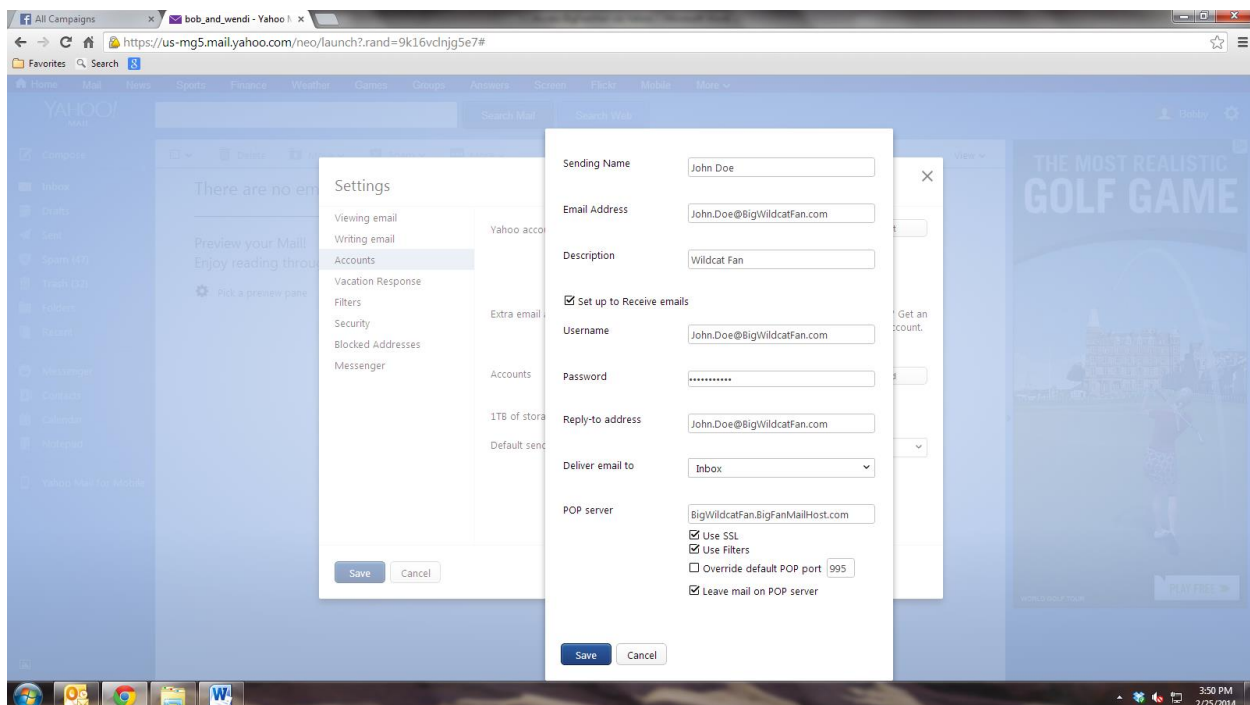

Step 3: Click on Accounts and then click on Add

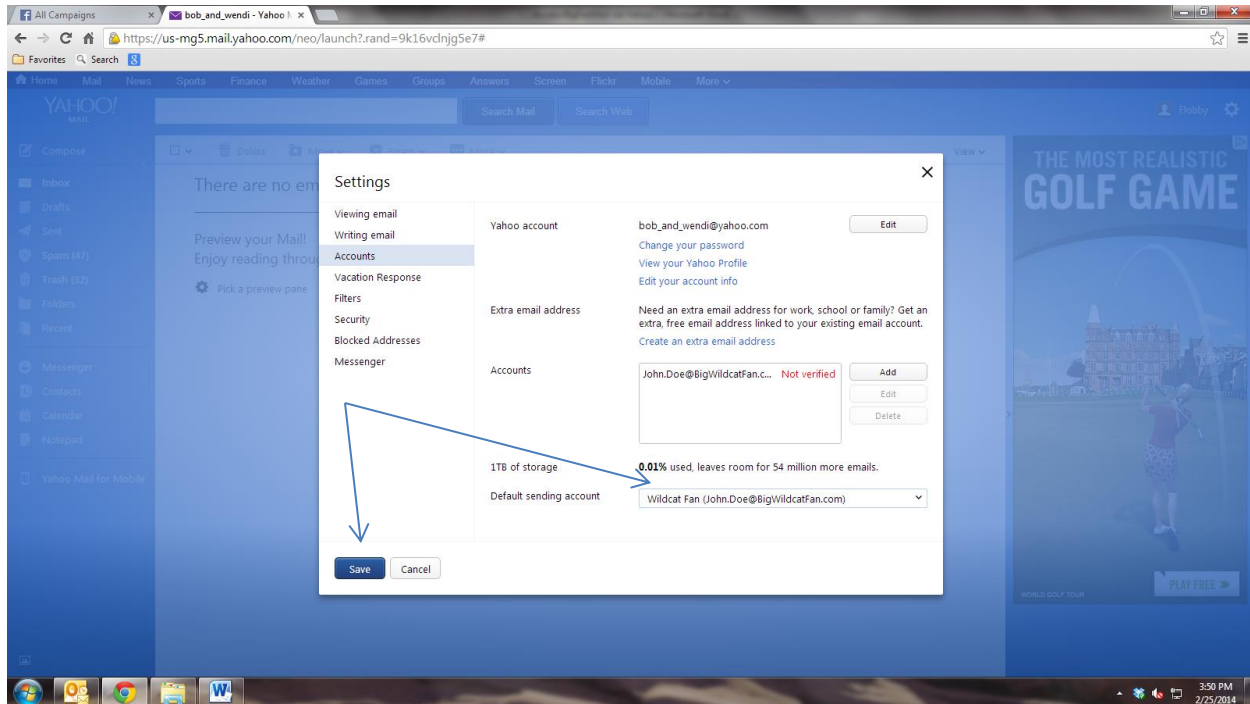

Step 4: Enter your new BigFanMail Information

- In the Sending Name, put your full name
- In Email Address, put your new BigFanMail email address
- In Description, put anything you want to help you identify your BigFanMail Address
- Check "Set up to Receive emails"
- In Username put your FULL BigFanMail address
- In the Password field, enter the password you created for your BigFanMail address
- In Reply-To Address put you FULL BigFanMail address
- Deliver Mail to: select Inbox
- In the POP server field, enter YOURDOMAIN.BigFanMailHost.com where "YOURDOMAIN" is the extension on your BigFanMail address (without .com).
 - Example: If your new email address is John.Doe@BigWildcatFan.com, you would enter BigWildcatFan.BigFanMailHost.com as your POP Server
 - Example: If your new email address is Jane@BigTideFan.com, you would enter BigTideFan.BigFanMailHost.com as your POP Server
- Check Use SSL
- Check Use Filters
- Make sure Default POP Port is 995. If it isn't, then override it and enter 995.
- If you want to access your email from other places besides Yahoo (a smartphone or webmail, for example), Check "Leave Mail on POP server"
- Click Save

Step 7: To make your new BigFanMail address the default email when sending emails in Yahoo, select your new address in the default sending account dropdown and then click save.

Step 10: You should now receive an email to your BigFanMail account from Yahoo (it might take a few minutes). Open this email and verify your email address. You may have to access your BigFanMail address via the webmail client to get the verification email. You can access your BigFanMail account via the web by going to our support page and clicking on the Webmail support link.

That's it! You should now be able to receive email to your new BigFanMail email address to your Yahoo mailbox and reply from the address as well.
