How to change your BigFanMail Email Address Password

If you need to change your BigFanMail Email Address Password, you need to do it on the email server via the Webmail client. You would also need to change your password in any email client you may be using (Outlook, iPhone, Android, etc).

To change your password on the BigFanMail Mail server, follow the steps below.

Step 1: Open a browser and go to Https://yourdomain.BigFanMailhost.com/webmail

Be sure to replace yourdomain.com with your actual domain name:

If your email address is John.Doe@BigWildcatFan.com, you would go to
https://BigWildcatFan.BigFanMailHost.com/webmail
If your email address is SallyJones@BigBillsFan.com, you would go to
https://BigBillsFan.BigFanMailHost.com/webmail

Step 2: Enter your username and password, and then click OK.

User Name: Enter your full email address, all lower case
Password: Enter your email address' password

Step 3: After logging into webmail, you will see this screen. Click on Change Password.

Step 4: Enter your new password and then enter it again and click the change password button.

That's it! Your password is now changed. Now you will just need to update any of your email clients with your new password.

If you have any issues, please email us at support@BigFanMail.com.
